Help us help our planet.....

Don't squash that spider!

All bugs (no matter how yuk!) are essential so please trap them in a jar and release them outside instead of squishing them.

Turn off the water tap whilst brushing your teeth.

When drawing your pictures remember to use both sides of the paper. Mum and Dad get two pictures for the price of one!

Wildflowers are pretty but the busy buzzy bees need them more than we do. Let them grow and watch the bees collect their food.

Don't throw your old toys away...give them away and let someone else have as much fun with them as you did.
